

## COMCAST KIDS: On TV. Online. ON DEMAND. On Your Terms.

**ABOUT:** Comcast offers kids and parents some of the best kids' programming on television and the Internet. Comcast combines great content with the ability to take control of the online and television viewing experience through unique services like digital video recorders (DVRs) and ON DEMAND as well as advanced parental control features.

**COMCAST CABLE** Comcast Cable features leading national kids' networks, including:

- Boomerang
- Cartoon Network
- Discovery Kids
- Disney
- HBO Family
- Nickelodeon
- Nick Jr.
- Noggin
- PBS KIDS Sprout
- Starz Kids and Family
- The N

### **KIDS ON DEMAND**

- Gives parents and kids the flexibility of watching their favorite shows whenever they want.
- Programming includes popular shows from leading kids' brands, such as *Bob the Builder*; *Tom and Jerry*; *Sesame Street*; *Angelina Ballerina*; *Dora the Explorer*; *Go, Diego, Go!* and *Blue's Clues*.
- Features popular cable network content as well as exclusive VOD Kids Networks (Pre-K Kids, Vortex).

### **DVR**

- Provides parents with the ultimate flexibility and control. Parents can record their favorite shows as well as top children's programs and watch them anytime of the day or night.

### **ONLINE**

- Videos in The Fan™, Comcast's broadband media player, include content from Disney, PBS KIDS Sprout, ABC Family, Buena Vista Pictures, PBS's Fast Focus, plus kid-friendly videos.
- Disney Connection – a virtual playground for kids ages 3-11, who can enjoy free games, puzzles, comics, activities and special discounts to Disney's Blast and Toontown.
- Games on Demand – includes such popular games as Carmen Sandiego, Clifford and ClueFinders, among others.

### **PARENTAL CONTROL**

- Parents can block programming they do not wish their children to view on both digital and analog cable and can also request a particular channel(s) be blocked at no additional charge.
- Online parental control tools offer Web content filtering, time limits and supervision capabilities. Parents also have the ability to monitor where children surf, set age-based access levels and Internet time limits and block websites.
